# ACCOUNTING AND FINANCE

## ABOUT THE PROGRAM

All industries require personnel with accounting skills. The Accounting instructional program at CCCC focuses on many business functions and emphasizes learning generally accepted accounting principles. Students successfully completing the Accounting Program can expect to gain knowledge and skills like analyzing financial and non-financial business data, interpreting data for reporting purposes, using applicable accounting standards, forming recommendations for business leadership based upon proper data analysis, demonstrating acceptable written communication skills, updating manual and computerized accounting records using journals and ledgers, preparing financial statements and reports for internal and external use, and other necessary skills to enter an accounting-based environment.

## Possible Employment In Industry
